SUBJECT: 2008 NASA Occupational Health Conference: July 8-11, 2008

The Chief Health and Medical Office will hold its Annual Occupational Health Conference in Baltimore, Maryland, near the Inner Harbor at the Radisson Plaza Lord Baltimore. The theme this year is, "*The Past: Key to Navigating Our Future.*" Three Professional Development Courses will be offered on Monday, July 7. The Plenary Session begins on Tuesday, July 8 and ends on Friday, July 11. This year, there will be five Breakout Sessions: (1) Electronic Health Record System, (2) Health Physics, (3) Employee Assistance Program, (4) Occupational Medicine, and (5) Industrial Hygiene. Other special events are planned throughout the week.

The NASA Occupational Health Website provides the Conference agenda, registration information, and other important logistical details. More detailed information will be forthcoming on the Three Professional Development Courses. We invite you to visit the Website at http://ohp.nasa.gov/conference_info/conf_gen/index.html. The regulations for NASA-sponsored events have changed, so please note the special event fee for non-NASA employees. Reservations at the Radisson Plaza Lord Baltimore must be made by **Friday, June 13, 2008**, to receive the Federal Government lodging rate.

Your attendance at this year's Conference is strongly encouraged, as it is an excellent means of earning continuing education credits, networking with Agency colleagues, receiving updates on Agency initiatives, and learning about current trends in Occupational Health. If you require additional information, please contact Mr. Alan Gettleman or Ms. Janine Hardin at (321) 867-2961.

We look forward to seeing you in July!

A handwritten signature in black ink, appearing to read "Richard S. Williams", with a stylized flourish at the end.

Richard S. Williams, MD, FACS
